'SUPREME TRIO' IS REAL FARM SECTION

NODAWAY, ATCHISON AND HOLT, THE AGRICULTURAL PREFERENCE

NODAWAY MOST ALLURING

Former Newspaper Man Takes a Trip Through the old Home Town and County.

The following article, written by B. C. Biggerstaff, formerly with the Maryville Tribune, is taken from today's issue of the Drover's Telegram, published at Kansas City.

Nodaway, Holt and Atchison counties in Northwest Missouri are the three best agricultural counties in the state, and their conditions are as varied as though they were not adjacent or part of the same section of the state. They are a peninsula of land that extends down out of the Southwest Iowa, between the Platte and the Missouri rivers, a vast magnificent, regal agricultural domain where people live at home and board at the same place.

To view this agricultural section one should start at Maryville, Mo., the county seat of Nodaway county, the farthest east of the three great northwest Missouri counties. Even under a blanket of snow and on a morning when the temperature was below zero, a ride across Nodaway county is thrilling, because there is a fine vista of farm houses, of cattle and hogs and horses and mules out on the land, and stalk fields which in their winter state show that a huge corn crop had been borne on those stalks during the season.

Before tearing loose from his moorings at the hotel at Maryville, where a big base burner, radiating light and heat, warms a very attractive hotel lobby, one should see Maryville's business section, for this town was built by farmers and is populated by farmers. One must go first to the Farmers' Trust Company, officers of some of the best agricultural financiers in Missouri, a near two million dollar institution, costing more than \$100,000 exclusive of the land it occupies the great financial institution of Northwest Missouri, formerly a national bank. The interior is a vision of massive elegance and beauty.

B. C. Pierce, the man who has staked one of the northwest Missouri farmers to land than any other individual, and who heads the farm loan department of this gigantic county bank, seated in his private office in luxury and elegance, beams the fact that there is no back room of the fine building, a back room where the farmers used to gather in winter days. Now the "back room" is a marble wainscoted room, with fine chairs, tables, book cases and other fixtures up over the main entrance to the bank, and just across the hall from the directors' rooms. Times change.

Farmers came and went through this great bank all forenoon. C. D. Bellows and Lawrence Ogden, were heading a drive to get all the farmers in Nodaway county to take memberships in the county farm bureau organization, and were succeeding as 1,500 memberships had been subscribed up to last

Saturday.

According to W. C. Pierce, the veteran farm loan man and financier of Northwest Missouri, 200 farms in Nodaway county changed hands during 1919 at an average of approximately \$250 an acre. The highest price paid was \$312.50 and this was the highest paid in any of the three great counties, Nodaway, Holt and Atchison, as the farms in Nodaway county are smaller than in the other two, and more highly improved.

But Nodaway county land made 45 bushels of corn on the average in 1919 and it produced a great wheat crop, only a lot of it could not be saved as it fell down during the wet days preceding harvest time. But wheat did not pay Nodaway county farmers, just as it did not pay farmers in other counties in Missouri, but Nodaway county had a lot of boys in service abroad when the big wheat crop was asked for and it went over the top, and paid for its patriotism with a loss on wheat.

One of the four first Americans captured by Germans was a Maryville boy and he is now home in civil life after a period in a German war prison. That one boy's fate inspired Nodaway county to deeds of valor on the way of production. Farmers coming and going at the Farmers' Trust company that cold January forenoon, all told the same story. They have a great deal of corn and they have a great deal of grass and silage and roughage, but they are afraid of the effects of the agitation against the high cost of living. Many of them if not all of them, said they took a loss on their live stock marketing in the latter months of 1919, and they are going slow on their feeding operations. The county has less than 60 per cent of a normal supply of cattle and hogs on feed at this time, all because of this fear of what agitation will do to the value of farm products. Every corn crib is bulging with corn which is worth on the average \$1.30 a bushel, but a great deal of it is being hauled to the elevators and being shipped out. Farmers stated that the spring pig crop will be short, because of the losses that farmers took on their hogs last fall when the big slump came and which moved many brood sows to market.

The young gilts cannot produce such litters of pigs as did their old and tried and true mothers that are now bacon and lard. Nodaway county, a great hog and cattle country, is going to be short on both cattle and hogs for some time to come.

This situation, this fear of what agitation against the high cost of living will do to the farmers, is particularly irksome as the farmers really want to put their high priced land to work at super production, but are afraid to do so.

FINANCES OF CITY ARE IN GOOD SHAPE

GENERAL FUND HAS BALANCE OF \$6,734.47 ON HAND JANUARY 6

SPENT \$20,000 ON PLANT

The Report is for the Quarter Ending Jan. 6 and Shows Much Progress Has Been Made Under the New Form.

The report of the finances of the city at the close of the third quarter under the commission form of government is a good one and shows a good balance on hand in the general fund. The balance on hand in this fund is \$6,734.47 as compared to \$919 overdrawn a year ago. The reason for the good balance is due to a decrease in the disbursements and also on account of taxes being more this year. The city has also paid off \$500 of the principal on the notes held by the banks here. This leaves \$6,500 yet held by the banks. They also paid off an old account of \$1,081.91 to the light company for street lighting service before the special levy for this purpose was voted last year.

The water department shows a balance on hand of \$280.85. The expenses in this department has been very heavy on account of the price of coal, the fuel to run the plant costing \$2,545.93 during the quarter.

The street fund also shows a good balance of \$449.90. One reason for this is due to having no street commissioner as heretofore. The work being done when necessary.

Of the water bonds voted last fall, \$20,882.94 have been expended in improving the plant. The bond issue was for \$50,000. A payment of \$13,890.54 has been made to the Randall Construction company on their contract.

The report of the different funds of the city for the quarter ending January 6, 1920, as follows.

QUITMAN WORKING FOR ELEC. LIGHTS

PLAN TO EXTEND LINE SOUTH FROM BURLINGTON JUNCTION

MRYTLE TREE HAS PLAN

Farmers in District Organize to have System Extended from Union School House.

The business men of Quitman have recently been agitating the proposition of securing electric lights for their town and the prospects look good for realization in the near future.

A proposition has been made Quitman by Manager C. C. Hellmers of the Maryville light and power company, that the system be extended south from Burlington Junction to Quitman, giving service to the farmers along that line. A plan to carry the power line west from Maryville to Quitman, was agitated, but sufficient subscribers were lacking to the proposition and it was abandoned. The line from Burlington Junction is much shorter and the Quitman business men are now looking after the securing of enough patrons along the way to have a system extended.

At a meeting Monday night of the farmers in the Myrtle Tree district, it was decided to allow their proposed electric light system to remain until fall. The city power line no westends as far northwest as the Union school house and the plan of the Myrtle Tree district was to extend the line from that point. All farmers present at the Monday night meeting were in favor of the plan but decided to hold it over until fall, thinking the building conditions would be improved.

The farmers of this district have been discussing such a proposition for some time and no doubt will secure sufficient patrons to have electric lights all over the district when the work is finished.

WORK OF DR. EARL WILFLEY IN WASHINGTON CHURCH

Dr. Burtis A. Jenkins, editor of the Kansas City Post, had the following in Tuesday's issue about Dr. Earl Wilfley of Washington, a brother of Geo. L. Wilfley of this city:

Dr. Earl Wilfley, is a man of influence and power in the capital. He is in charge of Garfield's church, and certain judges of the supreme court, as well as certain senators, are pretty regularly in his audience.

He says that life in Washington is enjoyable enough if one is willing to take it as it comes and does not expect to set the world on fire.

"I have seen one preacher after another come here, acting as if he expected to illuminate the nation from this point, not saying so but speaking louder than words through his actions, and then, after six month's time, I have seen him pack up his duds and go back to the old home town.

"Washington is a hard place, a dead level place, and one must be content to peg along, waiting through the years for results."

Dr. Wilfley has waited through the years, and now the Inter-church world movement is going to apportion something like \$600,000 for an adequate building for him and his work.

Miss Ruth Fite who underwent a serious operation at the St. Francis hospital Friday, is improving rapidly.

SOUTH FARMERS FOR GOOD ROADS

FIRST STEPS TOWARD DISTRICT ORGANIZATION LAST NIGHT

MEET AT DAVIS TONIGHT

South Half of Polk and North Half of White Cloud Appoint Committees to Complete Organization.

A meeting for the purpose of organizing the farmers of the south district into a good roads district was held last night at the Scudder school house, south of Maryville. The north district of the county have recently been organized into good roads districts and their petition filed with the county clerk for the building of hard surfaced road under the benefit of the Hawes law allowing a state appropriation with remainder paid by owners of land within a half mile district.

Some good roads boosters from the north part of the county were present at the meeting and addresses were made by William Burks, H. A. Maxwell, W. W. Alexander and C. P. Ingerson.

The organization of the south half of Polk township was begun by appointing a committee composed of Granville Gray, chairman; L. B. Ogden, J. F. Roelofson and Marion Ripley, to complete the work. A similar start was made by the farmers in the north half of White Cloud township with a committee composed of R. M. Evans, chairman, R. T. Jones, Verne Manley and T. A. Parrish.

There will be a meeting held tonight at the Davis school in White Cloud township, for the purpose of reorganizing a good roads district in the south half of that township.

HAS MYSTERIOUS MALADY APPEARED IN MARYVILLE?

The mysterious malady which struck several towns in Kansas and Oklahoma within the last few days probably was the cause of the sickness of several people in Maryville within the last week or so, in the opinion of one physician. At this time, however, there is not a great deal of sickness here.

From reports from other places, it is said the disease is an infection. How it will spread or what the disease are matters of conjecture. There is acute indigestion in all cases, attended by either vomiting or dysentery. In some instances, there is no vomiting, but the indigestion and dysentery are present, while in other cases indigestion and vomiting are the symptoms of the disease. It seems to effect both children and older persons equally.

He said for me to take the 'Golden Medical Prescription' and the 'Golden Medical Discovery' also some 'Pleasant Pellets' (all of which I got at the drug store) and I soon began to get better. YOUR COLD EASED AFTER FIRST DOSE

"Pape's Cold Compound" then Breaks up a Cold in a Few Hours.

Relief comes instantly. A dose taken every two hours until three doses are taken usually breaks up a severe cold and ends all the gripe misery.

The very first dose opens your clogged-up nostrils and the air passages in the head, stops nose running, relieves the headache, dullness, feverishness, sneezing, soreness and stiff neck.

Don't stay stuffed up! Quit blowing and snuffling! Clear your congested head! Nothing else in the world gives such prompt relief as "Pape's Cold Compound," which costs only a few cents at any drug store. It acts without assistance, tastes nice, contains no quinine—Insist upon Pape's!—Adv.

During her sickness, and suffering, she bore it all with patience and love. She was a good mother and possessed the rich qualities which will have their lasting influence for the early days of her youth, and united with the Methodist Episcopal church, at Centenary, on the Graham Circuit,

A Startling Land Selling Plan

PRESENTED FOR THE FIRST TIME IN THE HISTORY OF THIS COUNTRY.
\$5.00 PER ACRE, CASH DOWN—THE REST 25 YEARS' TIME AT 5% INTEREST

We now have 25,000 acres in the farm land belt, known as "THE FAMOUS
OLDEN PRAIRIE DISTRICT" Wyoming. The land is all within from 1 to 20
miles of Cheyenne, the state capital, and no tract is more than 8 miles from a railroad
station.

Is one among the best all-around agricultural and stock sections of the West,
and is the basis of all wealth. If you own land get more, if you do not, become a
land-owner. This year will see another advance in all the lower priced farm lands.

For the investor, the renter, the young man just getting a start, the salaried
man, Mr. Business Man, Mr. Lawyer, Mr. Doctor, Miss and Mr. School Teacher, Mr.
Clerk and all the rest of you people who are wage earners or who earn your income
rough service to others, we wish to suggest to you, that here and now is a real first
class opportunity for you to become land owners in the easiest possible sort of way.

Land is a safe investment and one that will be largely multiplied by the advance
prices, which must come.

Present prices range from \$17.50 to \$40.00 per acre, depending upon quality, lo-
cation and improvements, if any.

Now for some practical illustrations: That you may have before you the exact
working as applied to our lands, we give an example. This is of a choice quarter sec-
tion of land. Our price is \$25.00 per acre or \$4,000. You pay down \$1,000, and in six
months make a payment of \$105, which pays up the accrued interest and begins to
kill the principal.

Less than 58 cents per day is all it takes. Every day, week day and Sunday,
summer or winter, the milk truck of the Cheyenne Creamery passes your door, and,
present prices, less than 2 gallons of milk per day from old "Bossy" or 9 fresh
eggs, will more than keep up the installments and pay for your farm.

Now have excursions every two weeks. See us and we will make arrange-
ments for you, as we are going within a few days.
